1 System's Perspective

Automatic CI build test

1.1 Design of your ITU-MiniTwit systems

1.2 Architecture of your ITU-MiniTwit systems

1.3 Important interactions of subsystems

2 Process' perspective

2.1 How do you interact as developers?

2.1.1 How is the team organized?

2.2 Stages and tools

2.3 Organization of repositories

2.4 Applied branching strategy - Kasper

3 Lessons learned perspective

3.1 Evolution and refactoring

3.2 Operation

3.3 Maintenance
